

TRACKING SUCCESS
VIRTUAL TEAMING ADVENTURE

INTRODUCING THE TRACKING SUCCESS VIRTUAL ADVENTURE

IGNITE your people | CONNECT your team | ALIGN your organisation

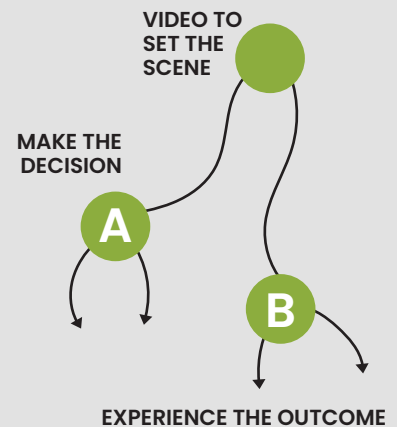

WHAT IS A VIRTUAL ADVENTURE?

Our Virtual Adventures immerse participants in unique and exciting interactive experiences. Individuals and teams embark on **epic quests** from the safety and comfort of a meeting room or conference centre.

To begin with, the real life adventures of our team are captured on film. In post-production we identify the most significant moments of the expedition and combine these into **a single storyline**. That storyline now becomes your Virtual Adventure.

Back in the meeting room you now become immersed in the experience. **You become a member of our team**. Working together you make your own decisions and navigate your path through the decision tree.

INSPIRE

CONNECT

COMMIT

At crucial moments the facilitator pauses the expedition to conduct a business focused conversation. These are called **'Campfire Conversations.'** Their purpose is to ensure that what you experience in the Virtual Adventure has direct relevance to your team and organisational challenges.

TRACKING SUCCESS

VIRTUAL TEAMING ADVENTURE

FOR TEAMS THAT NEED TO WORK BETTER TOGETHER

HOW DOES TRACKING SUCCESS WORK?

Exciting wildlife tracking videos, storytelling and facilitation quickly transport you into the footsteps of an expert wildlife tracking team in South Africa's greater Kruger National Park.

You and your team become the trackers. You are challenged with real life situations faced by our Tracking Team. Together you solve problems and make decisions.

You will learn how to build trust and to work better together. It's great fun, highly engaging and the content is rich in learning and application.

Tracking Success breaks the mold of traditional team building programmes. It's a fresh and impactful way to improve collaboration, team spirit and to get your business galvanised and aligned behind your company's most ambitious goals.

If you are looking to get your people focused and fired up or you want your upcoming conference to be a one-of-a-kind event the *Tracking Success Virtual Teaming Adventure* is proven to do the job.

WHAT OUR CLIENTS SAY

"I'm not easy to please but Tracking Success was awesome! The team had an absolute ball and your process elicited such meaningful conversations. Thank you so very much. We will definitely be working together into the future." **Karen Haremse, Director, Joint Prosperity**

"Yesterday was an incredible day. Our first conference back after three long years. Together we went on a virtual tracking adventure whilst building our leadership and decision making skills in a fun environment. Thank you to the team for an amazing day." **Tracey Sullivan, Partner, Grant Thornton**

"Thank you for an amazing African adventure. It was truly an educational, fun, teaming experience. Very much enriched by your obvious passion and love for what you do. Your wisdom, enthusiasm, and energy had us on the edge of our seats!" **Linda Shanley, VP, Palo Alto Networks**
